If you take a drive up to Stockton Lake through Ash Grove, you might decide to take 245 north. On this road is a one-lane bridge. As you approach the bridge, you will find a yield to oncoming traffic sign posted. On your return trip, you will find the same sign. No matter what direction you are coming from is a yield sign. This willingness to yield is important to avoid any head-on collisions.

In the scripture, we find that God calls us to yield to Him and to other believers. Very similar to this idea is the word submit. When someone talks about the word submission, it is often used in a negative way. Yet, God uses it in a positive light. For when we submit our lives to God, we find real freedom. James

4:7 teaches that this kind of godly submission coupled with a desire to resist the devil, brings freedom from temptation, power over sin, and victory for the believer. So, let us be willing to humble ourselves in the sight of God trusting that as we do so, we will find great victory in our lives.
